

Title **OUR TOP TEN (primary)**

Short description

Students from different countries share their feelings about their favorite things. At the end they can find out differences and similarities of their likes and dislikes. All the products are displayed in a blog. Various means of ICT are used.

Communication language(s)

English, Deutsch, Français

What is the age range of the pupils to be involved in the project?

From to

How many pupils altogether are going to participate in the project?

Subject areas

Cross Curricular, Foreign Languages, Informatics / ICT.

Tools to be used

e-mail, MP3, Web publishing, Chat, Forum, Other software (Powerpoint, video, pictures and drawings)

Aims

1)Bringing innovations in teaching methods of schools participating in the project 2)Comparing and analyzing the preferences of students in different countries

Work process

There are 2 possibilities of doing this project. 1. only one activity - we can do this in a term of about 2 months (short and easy project) 2. more activities - we can do this through the school year (long and easy project) Oct :Introducing schools for example by preparing school PP presentations; Choosing the main Topics; Nov - May: displaying and discussing 10 different topics each month.

Expected results

1)e-Twinning blog : PP presentations, videos, photos, paintings 2) exhibitions in schools involved the project,
